VISTA GRANDE CONTINUOUS PROGRESS PROGRAM NOW ACCEPTING 4TH AND 5TH GRADE ENROLLMENTS FOR 2009/10

DANVILLE, Calif.—April 27, 2009—The Continuous Progress Program at Vista Grande Elementary School is currently accepting fourth and fifth grade enrollments for the 2009/2010 school year. The program is open to all students in the San Ramon Valley Unified School District.

In addition to the traditional class curriculum at Vista Grande, students in the program benefit from weekly Spanish instruction, and a rich learning environment enhanced by increased one-on-one time with teachers and aides.

“Our goal is to make the Continuous Progress Program a place where students can get as strong a learning environment as possible,” said Susan Doran, the program’s chairperson. “Key elements such as an additional 20+ hours of paraprofessional aide time, Spanish instruction, and classmate consistency from year to year, enriches our students’ experience and helps prepare them for success at the next level of middle school.”

About the Vista Grande Continuous Progress Program

The Vista Grande Continuous Progress Program, which began in 1984, is based on a philosophy that encourages teachers to challenge students, with the support of aides and parents, to work to the best of their ability as they move through the elementary school program. Its goal is to build within students a sense of responsibility, self-discipline, confidence and pride in their accomplishments in a nurturing environment – in short, to progress to the best of their potential. The collective cooperation of home and school ensures the best possible learning environment for students.
