Addendum/Clarification No. 1 Item Bid: PIZZA PRODUCTS RFQ# 649

The following clarifications, changes, additions, deletions and corrections hereinafter set forth shall apply to the Bid Documents for this project and shall be made a part thereof and subject to all the requirements thereof, as if originally specified and/or shown.

Item 1:

Question

On Page 15, titled Bid Form, in the section that is titled "Nutrient Analysis of Pizza Product – Information per each slice of pizza" on line six, the descriptor is "Cholesterol Dietary Fiber" and the line below says "Dietary Fiber". Should line six be Cholesterol?

Answer

Cholesterol should be listed by itself (delete "Dietary Fiber from the same line). See correction below.

Nutrient Analysis of Pizza Product - Information is <u>PER EACH slice of pizza</u>						
ITEMS SUBMITTED ON THIS RFQ MUST MEET THE STANDARDS OF BOTH THE STATE AND FEDERAL GUIDELINES FOR COMPETITIVE FOODS OR NATIONAL SCHOOL LUNCH PROGRAM. ALL PRODUCTS MUST BE TRANS FAT FREE OR LESS THAN 0.5 GRAMS PER SERVING UNLESS TRANSFAT IS NATURALLY OCCURRING.						
		Cheese	Pepperoni	Vegetarian	Hawaiian	Other _____
Protein	Cal					
Calories	G					
Fat - Totals	G					
Carbohydrates	G					
Saturated Fat	G					
Cholesterol	Mg					
Dietary Fiber						
Dietary Fiber	G					
Total Vit A	IU					
Vitamin C	Mg					
Calcium	Mg					
Iron	Mg					
Sodium	Mg					

Item 2:

Question

In addition to providing the samples as specified, we intend to provide additional pizza's (Cheese, Pepperoni, Vegetarian, and Hawaiian), all 16" cut into 10 equal pieces to reflect the actual product as it will be delivered. Please verify that this is acceptable and will not cause Domino's to be disqualified.

Answer

Should a vendor wish to provide additional samples to reflect the actual size and cut of the pizza that is served, that will be acceptable and will not disqualify a vendor as long as the originally requested samples are provided.

Item 3:

Question

We have 8 slice and 10 slice specifications for the pizzas. These specifications are slightly different in order to accommodate per slice nutrition requirements. On the Bid Form there is place to put only one set of nutrition for Cheese pizza, Pepperoni pizza etc. Which one shall we put there, 8 slice or 10 slice? I was thinking of making a copy of the Bid Form and on one put 8 slice nutrition and on the second put the 10 slice.

Answer

Should a vendor have the requested nutritional information for both an 8 and 10 slice, bidders can make a copy of the bid form and indicate the nutritional specifications separately.

Item 4:

Question

On the Bid Form the Total Vit A, Vitamin C, Calcium and Iron are asked in IU, Mg, Mg, Mg respectively. We get the nutrition information for these as the % of Daily Value based on a 2000 calories diet. I hope that will be acceptable.

Answer

For these nutritional areas, the % of Daily Value based on a 2000 calorie diet will be acceptable.

Item 5:

Question

On the Bid Form, for Protein the unit is 'Cal' and for Calories the unit is 'G'. Isn't it other way around?

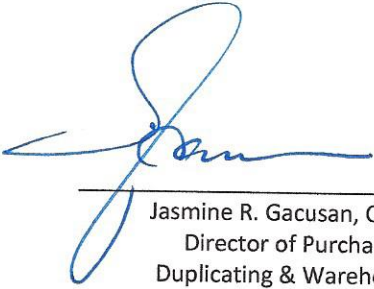

Answer

This is a typo. The Protein should be G, Calories should be indicated in "Cal". See correction below.

Nutrient Analysis of Pizza Product - Information is <u>PER EACH slice of pizza</u>						
ITEMS SUBMITTED ON THIS RFQ MUST MEET THE STANDARDS OF BOTH THE STATE AND FEDERAL GUIDELINES FOR COMPETITIVE FOODS OR NATIONAL SCHOOL LUNCH PROGRAM. ALL PRODUCTS MUST BE TRANS FAT FREE OR LESS THAN 0.5 GRAMS PER SERVING UNLESS TRANSFAT IS NATURALLY OCCURRING.
