DeSoto	\$152.50	\$152.50	\$152.50	\$385.00	\$152.50
<p>All calculations were based on an average route of 35 miles. I added the base rate to the cost per mile, minus any included miles, to get the total cost of the one way trip. DeSoto indicated that they charged for deadhead mileage so I a flat 10 miles, which is a very conservative estimate, to calculate their total cost.</p>
